GREAT CURE OF RUBUMATISM CONTRACTED UNDER TROPICAL CLIMATES.
BALTIMORE, Md., June 4, 1854. Mr. Stockbridge, of the Fountain Hotel Light street,

Baltimore— Dear Sir: Being on the point of leaving the city, avail myself of a few jole moments to thank you kindly for the medicine you sout me, and shich has restored me to the use of my limbs. I beg you to send me four bottlee more, to carry on my voyage. Since I had the foctune to use Dr. Hampton's Vege table Tincture my confidence is so strong that, in gratitude o the proprietors of said medicine, I be; you to present my respects to them, and induce them to make it more publicly known as a sure Rheumatic cure. Having called on me on the 19th of April last, and seen me prostrated on my bed, useless in all my li obs, you can appreciate nea ly se well as myself the prompt relief I received from Dr. Hampton's Tincture, and I am positive had it not been for your strong and foreible recommendations I should still have been in bed.

It is really a pity this specific should not be ap-proved by medical men, and like all patent drugs it should suffer the imputation the public generally give to such preparations. I my elf, who was al ways opposed to a patented specific, took this medi-cine with reluctance, and without confidence in it, and it was only through your disinterested, friendly recommendations, and my critical situation that induced me to try this really beneficial Vegetable You may inform Mesers. Mortimer & Mowbray

that they are at liberty to make use of my name in he support of the good effects of Dr. Hampton's Vegetable lineture, as it has cured me in five weeks of a chronic Inflammatory Rheumatism, contracted under tropical climates, and of seven years' periodical duration. I have only use! three bottles, and find that even the deformed parts of my hands are fast eturning o their former natural appearance I have been under the treatment of several physicians in Loudon and Paris, without any apparent benefit; also, while in New York, having tried the compsonian and Homospathic remedies, after bayag been termented with galvanic be teries, only and aromatic baths, and hundreds of internal and external medicines, all to no effect, I am, so far cured by this Hampton's Vege able Tineture only. Therefore, my ear sir, accept of the assurance of my gratitude, and believe me your wall wisher. THOMAS CANOT

REV. VERNON ESKRIDGE, U. S. N. PORTSMOUTH, VA, Aug. 18, 1851.

Mr. J. B. Boush—mear sir: While I am, in geneal, opposed to patent medicines, candor compels me state that I have great confidence in the virtues Hampton's Vegetable Tincture. For several months past I have used it in my family; and in dyspepsia, loss of appetite, distincts, and general de-bility, with entire success. So far as my experience PEEL'S LONDON GREEN GINGER extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy. I am, respectfully, yours,

A REFORM IN THE SPANISH ARMY has

been commenced by the new Minister, General O'Donnell. It is already decreed that, in order to reduce the excessive number of general officers, in future only one out of every three vacancies is to be filled, and the 38 promotions of Brigadiers and Maj. Generals previously ordered is to be limited to ten. This is a very good beinual changes consequent upon the whims and jobbing propensities of Inposes to submit to the Cortes a law procan become a general without having first regiment. As many impediments as possible are to be thrown in the way of the or revolts. These regulations are wise and salutary, and reflect credit on the statesmanship of the new ministers. But they are probably devised as much for economical purposes as for those of reform. The Spanish treasury is, in fact, bankrupt, in consequence of the ruinous put to its wits end for resources. Every general officer cut off is so much saved to the treasury. So also of the expense for

NEW MODE OF PRESERVING MEAT .-Gallignani's Messenger, of Paris, says there is now a project before the Empe-ror and minister of War, for the drying of meat in South America, where it can be had at about one sou per pound, and importing it from thence for the use of the army and navy. The process is thus described: "We have seen some specimens of meat

The water of the meat, which forms a very large portion of its bulk, is removed, not by heated air, which has been frequently mechanical means: the meat is then plunged into a kind of varnish made from he gelatinous portions of the animal, and which not only forms a hard surface, but also enters into the pores of the meat and augments the nutrition, and then the meat is gradually dried. In about tifteen days it is fit for packing, and will, according to to the assertion of the inventors, keep good for two or three years. When required for use, the meat is put for a few minutes into water, and it nearly resumes but beware Churchill, he falls off that its original bulk, and is cooked in the ordinary way.
